From the Founders' Desk

aidKRIYA turns 4!!

As we entered our fourth year, we moved from isolation to independence on a national scale. Our vision of "Joyful Joints and Blissful Bowels" has evolved. While we continue to provide mobility aids, we have realized that a "warrior's" journey requires more: timely diagnostics, accessible medicine, and basic public health infrastructure like clean water.

This year, we transitioned from supporting 100s to impacting 1000s across 15+ states.

We also saw focused and targeted community driven initiatives. We launched AIDothon 4.0 across 500 engineering colleges touching almost 1200 students. Our aidABLE initiative continued to impact lives and build confidence in people across India by making them mobile in partnership with Sahayatha. Additionally, we helped 1800+ people with medicines and tests in partnership with Tata1mg. We touched 4400+ lives in partnership with ImpactGuru by providing community water ATMs and securing clean water and better bowel health. Finally, we continued to distribute blankets amongst the elderly as part of our shuKRIYAide initiative.

We were also featured in media - **Redefining Motion: aidKRIYA's Bold Leap in Chronic Care** - <https://biovoicenews.com/redefining-motion-aidkriyas-bold-leap-in-chronic-care/>

We are no longer just an organization; we are a tech-driven support ecosystem for those battling Rheumatoid Arthritis (RA) and Inflammatory Bowel Disease (IBD).

Thank you for being part of our journey from care to empowerment.

Together, we are shifting the narrative from merely surviving chronic illness to truly thriving. Onward to deeper impact!

Sumitesh Das

Sujitesh Das

Our Mission

Encourage cutting edge research and technology interventions using physical aids and digital apps.

Enable caregivers and operational heroes — including delivery personnel, sanitation workers, and frontline staff — who keep our world in motion.

Support events and activities that create awareness on the importance of motion in our lives .

Our Vision

Be India's Pioneer
in Aiding Warriors
battling with
Autoimmune
Diseases of Joints
and Bowels.

Proud to Feature - an Insightful Spark to an Impactful Solution

Vijay Sharma, AIDothon 1.0 Alumnus & Founder of Flexirelief SmartCare

My journey began with a deep curiosity to solve real-world problems through technology, which led me to pursue Computer Science Engineering. However, a personal experience within my family, where I witnessed the challenges faced by a Rheumatoid Arthritis (RA) patient, shifted my perspective from building technology to building meaningful healthcare solutions. This became a turning point in my life.

During my academic journey, I actively explored interdisciplinary domains. In 2023, I was selected for a 2-month internship under the AIDothon Internship at IIT Ropar where I worked closely with medical professionals and gained deeper insights into Rheumatoid Arthritis.

It was during this phase that I met Dr. Meghanshi and Dr. Khushman Kaur, who are now key partners in the founding team of my venture. This experience helped me understand the critical gap in early diagnosis and patient-centric management of chronic diseases.

With this vision, I founded Flexirelief SmartCare Pvt. Ltd., which is now incubated at IIT Patna and has received government grants to support its innovation. Today, we are a dedicated team of 10 individuals working towards creating impactful healthcare solutions.

Currently, as part of the MedTech program at IIT Jodhpur and AIIMS Jodhpur, I am working at the intersection of engineering and medicine. My vision is to contribute towards a healthier society by enabling early detection, continuous monitoring, and improved quality of life for patients.

To realize this, our immediate goal is to build an integrated and clinically relevant ecosystem for Rheumatoid Arthritis (RA) care that supports patients across the entire journey from early risk identification and accurate diagnosis to continuous monitoring and effective assistive therapeutics. The aim is to enable timely intervention, personalized care, and better long-term disease management by combining medical insights with intelligent technologies.

This vision is being translated into reality through Flexirelief SmartCare Pvt. Ltd., where we are building solutions specifically for RA patients. While the journey begins with Rheumatoid Arthritis, the larger goal is to expand this model to other chronic diseases, one step at a time—creating scalable and impactful healthcare solutions that can transform long-term disease management.

AIDothon 4.0: The Tech Revolution

The Walker App Challenge was designed to create a digital marketplace connecting people who need someone to walk with (Wanderers) with people who are willing to offer their time and presence. The central idea was to harness the enormous coding talent in our Engineering colleges in India and develop a prototype, free to use app for mobility. This could bring about a social revolution and inculcate a sense of volunteering - thereby promoting healthier lifestyles. This 'instrument of change' could possibly bridge the gap between chronic disease management and the problem-solving potential of India's youth.

200X Growth in Student Participation This year, AIDothon 4.0 became a national phenomenon.

aidABLE: Diagnostics with Tata 1mg

We partnered with India's leading digital health platform to provide specialized screenings, thus **bridging the gap between symptoms and solutions:**

- **223 Warriors Assisted:** including Anti-CCP, Rheumatoid Factor, and Autoimmune Profiles.
- **Targeting Women:** 74% of our diagnostic beneficiaries were female, addressing the higher prevalence of RA in women.
- **National Reach:** Impacting patients in Mumbai, Bangalore, Delhi, Kolkata, and beyond.
- **Pharma Support:** Ensuring chronic medication reaches the doorsteps of those with limited mobility.

aidKRIYA's partnership with **Tata1mg** enabled access to essential pharmacy support for 1,671 beneficiaries across 22 states, with the highest impact in Haryana, Uttar Pradesh, NCR, Karnataka, and Maharashtra. The support focused on bone and joint health through calcium and vitamin D supplementation, joint-care formulations, pain-relief therapies, and nutritional supplements.

By improving access to treatments that strengthen bones, enhance mobility, and alleviate musculoskeletal pain, the initiative helped beneficiaries lead healthier, more active, and independent lives.

aidABLE: Pure Water Initiative with ImpactGuru

Hydrating the future through our partnership with ImpactGuru Foundation, we installed 250-litre RO Water Cooler Systems at:

- Govt. Senior Secondary School (Garhi Harsu, Haryana):** 1,400+ students now have access to safe, chilled water, improving health and school attendance.
- Sita Sahit Sthal Dharmshala (Sitamarhi, UP):** Serving 3000+ pilgrims and tourists at this culturally significant site.

aidABLE: Dignified Mobility with Sahayatha

Sahayatha
REDEFINING MOBILITY FOR THE IMPAIRED

135 Innovative Wheelchairs distributed through our partnership with Sahayatha Healthcare that continues to restore dignity.

- **Beyond Mobility:** Unlike standard wheelchairs, our sponsored units feature integrated toileting and self-cleansing systems.
- **Key Regions:** Deep impact across Tamil Nadu, Telangana and Kerala.
- **Focus:** Warriors with Spinal Cord Injuries and Locomotory Disabilities.

shuKRIYAide: Wrapping Our Elders in Warmth and Respect

Under our empathetic **shuKRIYAide** initiative, **aidKRIYA** returned to Barrackpore - the very home of our Foundation - to stand by our community's most vulnerable during the harsh winter months. Guided by deep respect and compassion, our team personally reached out to 56 elderly mothers and grandmothers, distributing traditional, heavy-duty Solapuri Chaddars to shield them from the biting cold. The occasion witnessed powerful moments of human connection, reflecting the profound gratitude in their eyes and the gentle smiles that warmed the entire room as these blankets were received.

This drive was born from our core belief that social responsibility begins at home, ensuring that those who nurtured our past are never left forgotten or cold in their twilight years. Ultimately, **shuKRIYAide** continues to prove that true healthcare extends far beyond medicine, weaving a safety net of dignity, comfort & unconditional love for our elders.

Winter Relief Distribution Initiative

aidADs: Community Awareness - Nurturing Strength via Karate

Through our dynamic aidADs program, **aidKRIYA** proudly stepped up as the main sponsor for the successful **Cadet, Junior & Sub-Junior Dojo Karate Championship 2025** held in Seraikela, Jharkhand. Out of a vibrant pool of over 120 young athletes, our backing - including corporate funding, branded T-shirts, and personalized e-Certificates - helped fuel an energetic tournament where 90 medals were proudly claimed.

Our core vision behind providing this support was to encourage young children, especially girls, to take up martial arts to build physical endurance, focus, and vital self-defense skills early in life. By honoring the silent pillars of this journey - the dedicated parents, coaches, and support personnel - we continue to reinforce the philosophy that grassroots sports development is essential for sculpting a resilient and fearless future generation.

Ultimately, this successful collaboration with the **Union Shotokan Karate Association of Jharkhand** proves that our commitment to youth empowerment and holistic community wellness knows no bounds.

aidADs: Community Awareness - Driving Fitness via Football

Through our dynamic **aidADs** campaign, **aidKRIYA** is thrilled to have sponsored the **Akshara Warriors** during their high-octane championship triumph at the **CP Monsoon League 2025** held in Kolkata, West Bengal. Out of a highly competitive 12-team fixture, these remarkable middle-aged athletes demonstrated elite physical endurance and tactical grit across 3 consecutive days of grueling matches to emerge as undisputed winners.

Charging the turf in striking pink and black kits, this passionate team proved their dominance, culminating in an unforgettable celebration as they lifted the winner's trophy alongside well-deserved individual player accolades. This collaboration powerfully spotlights our dedication to encouraging adults to shatter sedentary routines and take a proactive stance toward their long-term physical health by participating in community-driven sports.

Ultimately, fueling grassroots athletic campaigns allows us to reinforce the philosophy that peak fitness, teamwork, and a fierce competitive spirit truly know no age limits.
